Unlimited graphic designs in \$399

Real Monkey design agency is launching a flat rate monthly unlimited graphic design service on 5 Jan 2020.

Startups and entrepreneurs need graphic designs every now and then. Most of the times they are on budget constraints and can't afford high priced designers for daily graphic design needs. Finding a top quality dedicated designer on low budget is a tough nut to crack. Either they have to pay higher price for good work or compromise on quality of designs.

After helping more than 500 startups and entrepreneurs in design, Real Monkey decided to launch a dedicated design service for startups and entrepreneurs to help them with unlimited top quality designs in a flat monthly rate.

O WOW Design will be launched on 5 Jan 2020 where anyone can hire a designer for \$399 monthly for any design related work with unlimited revisions.

"The idea to launch O WOW Design comes in my mind after improving 1000+ poorly designed landing pages for startups which they also don't like but compromised due to low budget. So I decided to help startups and entrepreneurs with a low cost flat rate monthly design service so they can have good designs in low budget."
